

# QUADShow

State-of-the-art indoor rental solution for any event

- **Quick and easy, time-saving rental solution for the FHDS130 LED display**
- **Flexibility for landscape and portrait orientations**
- **Easily movable flight case solution - no technical knowledge required**
- **Motorised system with height adjustable built-in display stand**

The QUADShow offers a complete custom solution for the indoor rental market.

Its all-in-one motorised lift and transport system enables mobile use of the FHDS130 for effortless installation and disassembly - ready for any event in minutes.

For added flexibility it features height adjustment and the FHDS130 can be positioned in landscape or portrait mode. It also comes with a display stand.
