

## Optoma presents the EP747 a "Projector for all Seasons"

*The Optoma EP747 Delivers Style, Performance and Flexibility*

FOR IMMEDIATE RELEASE

OPTOMA # PR00052

**Watford, UK, 9<sup>th</sup> January, 2006.** – Optoma introduces the **EP747**; a bright 3000 ANSI lumen XGA digital projector for a wide range of applications – from the office and classrooms to corporate surroundings.

Attractively styled, the EP747 is easily portable and really comes into its own in installation applications with excellent video/audio capability, short throw add-on lens and 3000 hour lamp life. The comprehensive array of inputs include DVI, two VGA, S-video and Composite; and for each Video input there is an audio input allowing easy switching of sources.

Primarily a business projector, the video quality is nonetheless certainly up to the standard of many Home Theatre Projectors with 2000:1 contrast and pre-sets optimised for PC, Photo, sRGB, Video and Cinema applications.

The EP747 boasts a new sleek compact design including a patented wind-tunnel cooling system which is designed for near-silent operation at 30dBA.

With the new express-on and off feature, your presentation is ready to shine brightly in just a few seconds – eliminating the long start-up time generally associated with projectors. For the presenter on the go, the rapid power-off feature allows you to move to the next important presentation in seconds.

The EP747's first European outing will be at Integrated Systems Europe in Brussels 1-3 Feb 2006 so make a date and pop along to Booth L45.

### **EP747 Key Features:**

- Extremely bright at 3000 ANSI Lumen

Press Release
